In addition to Standard Limited Warranty, Allison transmissions listed in this brochure are eligible for Extended Transmission Coverage. Extended Transmission Coverage is available for purchase through Allison Authorized Distributors and Dealers. Details for Extended Transmission Coverage are shown on the following charts.

**REQUIREMENTS:** Use of Allison Approved TES 439™ or TES 353™ transmission fluid\*\* and Genuine Allison Filters is required. Failure to use Allison Approved TES 439 or TES 353 transmission fluid and Genuine Allison Filters will result in no coverage for repair beyond Standard Limited Warranty coverage. Transmissions that are not OEM factory filled with Allison Approved TES 439 or TES 353 transmission fluid and Genuine Allison Filters must have Allison Approved TES 439 or TES 353 transmission fluid and Genuine Allison Filters installed at the time of Extended Transmission Coverage purchase. Transmissions that are not OEM factory filled with Allison Approved TES 439 or TES 353 transmission fluid, or transmissions operating with non-TES 439 or non-TES 353 fluids, must be drained and filled with Allison Approved TES 439 or TES 353 transmission fluid to achieve 100% concentration. One hundred percent concentration is not achieved until the second consecutive fluid change using Allison Approved TES 439 or TES 353 transmission fluid. The second consecutive fluid change must be achieved at the time of Extended Transmission Coverage purchase.

**NOTE:** Except as noted, all transmissions with Extended Transmission Coverage have 100% parts and labor coverage
