

CONGRATULATIONS . . .

to the following distributor trainers who have attained their accreditation through the Allison Transmission, Inc. Professional Certification Program (PCP)!

The PCP class is 5 days of intensive learning and information exchange. Allison Transmission subject matter experts (employees who design and work with our products) conduct thorough technical presentations throughout the week. Each distributor trainer participating in the class is responsible for presenting a 4-hour pre-assigned topic to the rest of the class. Each trainer's presentation is critiqued and scored. They must also successfully complete a final exam in order to receive a passing grade for the class.

These trainers have demonstrated their exceptional knowledge of the Allison products on which they are accredited and outstanding teaching/presentation skills.

1000/2000/3000/4000 PCP Accredited Trainers

North America - Eastern Region	
★ Matt Riello Atlantic Detroit Diesel-Allison, LLC Pine Brook, NJ	★ Thomas Corliss Jr. New England Detroit Diesel-Allison, Inc. Wakefield, MA
